If you are experiencing technical problems:

I just tried donating online and it didn't work. What is wrong?

The NAMC employs a 3rd party vendor to process our credit card donations. Because of this, certain fields must be populated in order for the transaction to be processed. If you are experiencing any problems while attempting to make a donation to the NAMC, please refer to the following tips below:

Make sure that the address and zip code that you have entered are typed in exactly as they appear on your credit card billing statement.

Every transaction must contain something in the Zip Code field, even international donations. If you truly have no postal code, simply enter "00000" in this field.

If you are still having problems making a donation, there is a chance we are experiencing technical difficulties. Please email [info@motherscenter.org](mailto:info@motherscenter.org) with your phone number and the best time to reach you so that we may help you troubleshoot the problem or take your donation over the phone.

Thank you for your support and patience with any troubles encountered while making a donation to the National Association of Mothers' Centers!
